

I have been notified that LPFM may be expanding to take over the translator station Air 1, in Vermont (90.5 and 89.1). This station allows my family with three children to listen to the radio without swearing, sexual and violent innuendos. It is an alternative station that we use EVERY day and honestly, I don't know how we would get along without it. Please ensure that this does not happen. I am sure that Air 1 plays this part in many homes.

Thank you

Julie McCahill
